

e-Basic Life Support (Adults Only) 2021/2022

The course is made up of three parts: a 20 minute online video on BLS theory and practice (we advise that this is completed first), a multiple choice online theory assessment and a face-to-face practical assessment. All accessible via the LGT Online Learning Portal step by step

- Mandatory training for clinical staff.
- Basic Life Support (BLS), (this is for adults only).
- The e-assessment tab will come up first complete this after watching the video.
- Under the basic life support tab you will be able to access the video.

The Face-2-face assessment is a 10 minute slot that must be booked with the Resuscitation Services we will allocate your time once you have booked.

During this session you will need to demonstrate that you can perform the skills learned online.

Once this practical assessment has been passed, you will be deemed compliant with BLS for two years.
