

What do we value about senate?

#OurVisionOurVoice

- Grounded and real
- Unique atmosphere
- Mind space - mindful

Personal

- Reflect.
- Re-energise
- Think
- Inclusive
- Personalised and friendly
- Enjoy
- Think outside the box
- Learning
- Community

Professional

- Influence not react.
- Network
- Share ideas
- Bring problems and get practical solutions.
- Role model
- Connections.

Organisational

- See the bigger picture.
- Good update to take back.
- Groups of staff get their views heard.
- Care for older workers.
- Bigger picture.
- What's happening
- Student voice

What do we assume gets in the way of
what we want to achieve?

I assumed that undergraduates aren't prepared for a management place in the NHS

I have assumed it is going to be a very hard transition from student to nurse

Assumptions

Establish transitional care at WX. Start with IVABS

- No time
- Unable to work with MWs.
- Out of normal clinical area.
- Fear

Able to cut the finger nails of patients especially the elderly
- Staff are not allowed to.

Provide 50% of our women with continuity of carer –
More midwives needed.

Map grand rounds,
m&m and mdt's
so can utilise learning.

- Wii hab trial
- Rag rate handovers -
hospital @ night

I assume my
assumptions
are fact.

Assumptions

I want to have the walls
in the Margaret Centre painted
with murals on i.e. beach,
waterfall etc.

What is holding us back?

Agenda free meetings for
creativity and innovation
- time, culture change

Activity support for 16-17
year olds.
- Taking on the patient role
- Cost.

Data in real time for specialist teams.

- Cost
- Technology
- Negativity
- Lack of interest

Build reading time into job plan for new roles.

Look at what the papers say to disseminate research.

- We have always done it this way!

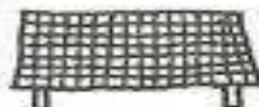

Assumptions

Ward based cardiac arrest Simulation.

- People will be upset at being called away from clinical practice

We commit to challenging our
assumptions.

WOULD YOU
LIKE SOME TEA?

NO.

ANARCHY
IN THE UK.

If we could break the rules for a day what would we do?

- Take care outside the hospital.
- Landscape the car park.
- Make things simple.
- Freer control – responsibility vs control.
- Flexibility of hours.
- Break out of regimented meetings.
- Do other things.
- Go to parliament and tell my story.
- Shop floor best practice vs policy.
- What is competence?
- Not follow the process.
- There are absolute rules.
